

Parent Canvas Accounts

In Canvas parents will be enrolled as an Observer in their students course.

What can Parents do in a Canvas course?

In Canvas, parents will have limited permission that will allow them to see what is going on in the course without interrupting the flow of daily course communication. Parents will not be able to submit work on behalf of their children, but they can view their grades, upcoming Assignments, read Announcements and Discussion, course Calendar, and interaction in the course.

How do I sign up for a Canvas account as a Parent?

Parents must provide their own personal email address to their children's school (make sure that it's the same address if multiples children as different schools are enrolled). If no email address is on file in the system an account cannot be created.

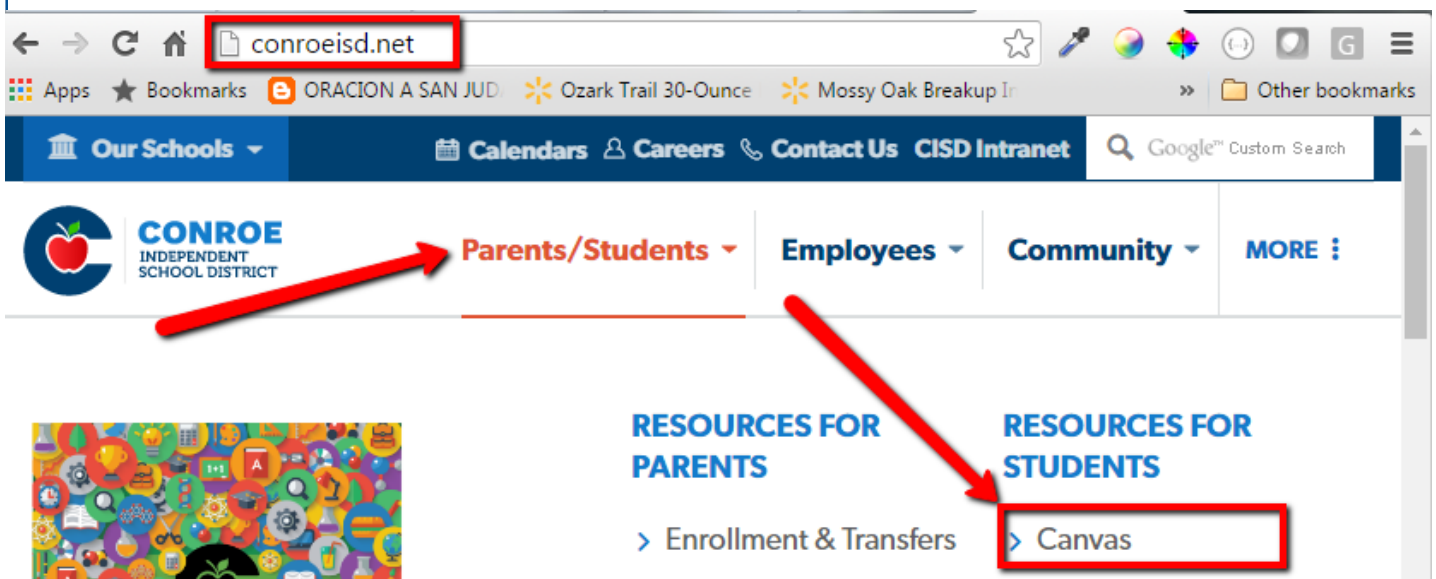

Where do I go to log in?
